25 okt. 2021. Wold Famous Ink.

Hi Per

NOTHING AVAILABLE YET. From World Famous and Perma Blend some colors will change, some will be withdrawn at all. The producer is already working on creating new colors that comply with the new regulations. We will probably receive the first delivery of new or changed colors in October or November. We will be ready for 2022. World Famous want to create equivalents for all colors. We do not know yet whether these will be new names or just to each colors name they will add the word "Deluxe" or "Luxe.

Regards Wold Famous Ink.

25 Okt. 2021. Eternal Ink.

Hi Per,

NOTHING AVAILABLE YET. Hope you're doing well Eternal will be releasing a statement shortly regarding the REACH inks. It sounds like they are releasing a new ink set that will meet these new laws. However, most suppliers are likely to keep selling old style.

Kind Regards **Francis Robinson** International Studio & Wholesale Manager

25 Okt. 2021. Edding International Ink.

Dear Per,

NOTHING AVAILABLE YET. But we know that time is scarce and are on the topic. Unfortunately, today, I cannot give you any further information or samples or prices yet, the covid lockdowns in Germany also affected our work. I give you update as soon I have. Thanks for your patience, Kind regards Gregor

25 okt. 2021. Intenze Ink.

Hi Per i have asked this question here are the replies i have had from intenze

Hi Allan/Per,

NOTHING AVAILABLE YET By the 4. January 2022 not one of the existing Tattoo Colors can be used or sold within the EU. Everything has to be changed like Labels and Ingredients and so on. Our chemists are working under high pressure to do the reformulation. As soon as we will have the Test results from CTL, we can say for sure which colors (color shades) are compliant for 2022. As long as we do not have the written („passed“) test result in our hand it makes no sense to send out rumors. At the moment my information is that our production will start soon with the new labels in the 24 European languages. All other information's i can send out as soon as i will get any official statements from Mario. And if your customers would check Eternal or World Famous homepage.....they could read the statements of them“we are working on it.....waiting for test results.....and so on.....**but not 1 is having a REACH conform products out on the market now** and / or you can find an image of any new products !!!!

Many Thx Michi Michael Hernesz
